Consolidated REALQ Assessment Overview

Cross-Parameter Patterns

Students show strongest performance in Problem Solving and Decision Making, with Creativity as an area for growth.

Implications for the School

Overall the cohort demonstrates solid entrepreneurial thinking fundamentals, with room to build more original idea generation.

Actionable Recommendations

Incorporate more open-ended brainstorming activities to strengthen creativity alongside the already-strong problem-solving skills.

This is demo/seed data generated for testing purposes, not a real AI-generated assessment report.
