

Student 1-1

REALQ REPORT

Overview: Student 1-1 shows solid critical thinking and problem-solving skills, clearly identifying real problems and breaking plans into concrete steps. Creativity is still developing — encourage exploring more original angles rather than familiar ideas.

Performance Evaluation

Parameter	Rubric Level	Evidence from Student Work
Critical Thinking	Proficient	Identified a specific, real problem (snack wrapper waste) and clearly explained who it affects.
Creativity	Developing	Proposed a workable idea but leaned on a familiar concept rather than a fully original angle.
Problem Solving	Proficient	Broke the plan into clear, testable steps (talk to classmates, prototype, test, get feedback).
Decision Making	Proficient	Chose to validate the idea with peers before building, showing reasoned, low-risk decision making.

Baseline Assessment Overview

3							
2							
		Critical Thinking	Creativity		Problem Solving	Decision Making	
		Proficient	Developing		Proficient	Proficient	

Performance Level:

Scenario-Based Assessments

Question 1

Describe one real problem you have noticed at your school or in your neighborhood, and explain who it affects and why it matters.

RESPONSE ANALYSIS

Critical Thinking Proficient

Clearly identified snack wrapper waste as a real, observed problem affecting the whole school.

Question 2

Describe the first three steps you would take to turn your idea into a real, working plan.

RESPONSE ANALYSIS

Problem Solving Proficient

Gave three concrete, ordered steps: validate with classmates, prototype, test and get feedback.

Decision Making Proficient

Chose to validate before investing time in building, a reasoned low-risk approach.

Summary

Student 1-1 shows solid critical thinking and problem-solving skills, clearly identifying real problems and breaking plans into concrete steps. Creativity is still developing — encourage exploring more original angles rather than familiar ideas.
