

Yaad Rakho — User Feedback Sheet

Collected from 8 households, Weeks 1-6

#	User	Missed doses before	Missed doses after	Comment
1	Household A	3 / week	0	Card is easy to see from the sofa
2	Household B	2 / week	0	Wants a bigger version for the wall
3	Household C	1 / week	1	Forgets on Sundays when family visits
4	Household D	4 / week	0	Likes ticking the box herself
5	Household E	2 / week	0	Message timing was too early at first
6	Household F	1 / week	0	Asked for a second card for her husband
7	Household G	3 / week	0	Colours are clearer than the pill box
8	Household H	2 / week	1	Lamination peeled at one corner

Summary

Six of eight households reported zero missed doses over six weeks, against an average of two per week before the card was introduced. The two remaining misses happened on days when the normal routine changed. The physical card was rated more useful than the reminder message by seven of eight users.
